1997 Clarke Prize Laureate

Perry L. McCarty, Sc.D.
Silas H. Palmer Professor of Civil and Environmental Engineering Emeritus
Stanford University

Dr. McCarty is universally recognized for his research on understanding contaminant behavior in groundwater aquifers and sediments, and has significantly contributed to the areas of water treatment, reclamation, groundwater recharge, and water chemistry and microbiology. He has been published over 300 times and is co-author of the textbooks, Chemistry for Environmental Engineering and Science, and Environmental Biotechnology: Principles and Application.

Currently the Silas H. Palmer Professor of Civil and Environmental Engineering Emeritus at Stanford University, Dr. McCarty has received numerous honors, including being elected to the National Academy of Engineering and American Academy of Arts and Sciences, as well as receiving an honorary doctorate from the Colorado School of Mines. He also received the John and Alice Tyler Prize for Environmental Achievement in 1992 and the Stockholm Water Prize in 2007.
